VOLUNTEERS NEEDED

The Barneveld Community Café is in need of volunteers for any amount of time that you can help, once a week or more at the Café.
(This would be great sevice hours for school.)

Unfortunately this last week we had to shut down early as a couple volunteers did not make it and Cliff can't do it by himself.

We truly appreciate all the volunteers that help and thank you so much in serving our community & cause.

We are always looking for more as summer activities get busy and we need more volunteers.

Please call Cliff at the Café at 608-924-0125 or send a message on Facebook.

Thanks again for all of your support!

Here at Barneveld Community Café Inc., we know that sometimes all it takes to change the world is a little support. Since our founding in 2020, we have been determined to make an impact. The Cafe & the Food Sustainability Project has served more than 24,000 people. The core of our efforts is to bring our team's fresh ideas and passion to the range of activities we're involved in. Through all of our endeavors we hope to display the conviction behind our beliefs.

We offer a \$0 menu for everyone. Cliff, our professional chef, volunteers to cook, and we rely on volunteers to make this possible.

NO COST CAFÉ

Helping The Community

It's all part of a mission to address food insecurity. People are proud and there is such a stigma to asking for help. So let's just give everyone the same bill. You pay nothing period and that just takes away the stigma. Enough people give donations that the café is humming along with its at-will payment system.

FOOD SUSTAINABILITY PROJECT

Reinforcing our Commitment

The food Sustainability project is on Tuesdays, from 1.00 pm until 6.00 pm. What is a food sustainability project? This project is about saving food from landfills. A collaboration between Second Harvest of Southern Wisconsin and Barneveld Community Café.

VOLUNTEER YOUR TIME

Help Us Soar

This is one of the simplest ways to help out our cause. We believe the best way for our initiatives to be successful is for the community to actively get involved. This is an easy and efficient way of contributing to the great work we do at Barneveld Community Café Inc.. Get in touch with any questions about how you can Volunteer Your Time today.

NATURALLY SPEAKING

By Jerry Davis

Wood ticks, aka dog ticks, attach to humans, and other animals for varying lengths of time. Female ticks can become engorged, whereas males do not feed on humans for more than a day or two.

Females drop off after feeding about a week and are completely engorged with blood from the host. They drop into leaf litter and lay several thousand eggs before dying.

Compared to deer ticks, which carry and can transmit Lyme disease in humans are generally very difficult to detach, whereas wood ticks are not as tightly attached.

Wood ticks are often found attached in the crown of the head, or at least above the hair line.

THE RECIPE BOX

Pizza Cupcakes

8 servings

Ingredients

cooking spray

8 medium cherry tomatoes

1 (11 ounce) can refrigerated pizza crust

8 teaspoons shredded mozzarella cheese

½ cup pizza sauce (such as Classico®)

8 teaspoons finely chopped red onion

½ cup shredded mozzarella cheese

8 slices pepperoni, quartered

Italian seasoning to taste

red pepper flakes to taste

garlic salt to taste

Directions

Instructions Checklist

Step 1

Preheat the oven to 400 degrees F (200 degrees C). Spray 8 cups of a muffin tin with cooking spray.

Step 2

Finely chop cherry tomatoes and drain any liquid. Set aside.

Step 3

Unroll pizza crust on a floured work surface and roll out thinly into a large rectangle. Using a 4-inch round cookie or biscuit cutter, cut 8 circles in the dough. Place dough circles in the prepared muffin cups, pressing dough into the bottom and up the sides of each cup.

Step 4

Drop 1 teaspoon mozzarella into each cup. Top with 1 tablespoon of pizza sauce. Add chopped tomatoes and red onions. Add 1 tablespoon of mozzarella to each cup, and top with pepperoni. Sprinkle each cup with Italian seasoning, red pepper flakes, and garlic salt to taste.

Step 5

Bake in the preheated oven until cheese is bubbling and melted, 14 to 15 minutes. Remove from the oven and let cool in the tin for about 5 minutes. Remove from the tin and serve hot.

Elizabeth Beicher

Extra Curricular Participation (with # of years participated in): Cheerleading-9,10,11 Yearbook-11

Most memorable moment in high school (appropriate): When Kennedy and I danced the night away at winter formal junior year.

Advice for underclassmen: Take every opportunity you're given.

Favorite teacher: Ms. Bosch

Favorite food: Pizza

Hobbies that you find yourself doing on a regular basis: Drinking coffee, watch tv and spend time with my sisters

If I had 3 wishes, I wish...

1. I had a picture from every amazing moment in my life
2. Go back and do more in high school
3. be able to have another hug and kiss from my nana

What have you learned about yourself during COVID? I've learned that I'm awesome. I also don't like to be stuck inside all day. I like to be doing things.

Post grad plans: I'm going to go to uw oshkosh for nursing

What would you like to say to your parents/guardians at this point in your life? I love you and thank you for believing in me. I couldn't have gotten through high school or life without you guys. Mom, thank you for always pushing me even when it annoyed me. I love you guys.

Jacey Spring

BARNEVELD GARAGE SALE DAYS ARE PLANNED FOR SEPTEMBER THIS YEAR.

Details will be updated as it gets closer to September.

MODERNA VACCINE APPOINTMENTS

May Be Made At Five UHH Clinic Locations

Upland Hills Health is accepting appointments to receive the Moderna COVID-19 vaccine at FIVE of its Family Medicine clinic locations.

People 18 and older may make an appointment to receive a COVID-19 vaccination by calling one of the following Upland Hills Health Family Medicine Clinics:

- UHH Barneveld Clinic - 608.924.1088
- Dodgeville Medical Center of UHH - 608.935.2308
- Mineral Pt Medical Center of UHH - 608.987.2346
- UHH Montfort Clinic - 608.943.6308
- UHH Spring Green Clinic - 608.588.2600

Upland Hills Health is currently offering the Moderna vaccine. It is not necessary to be an Upland Hills Health patient to schedule an appointment to be vaccinated.

The Pfizer vaccine is the only vaccine approved for those 12-18 years old. The Iowa County Health Department is leading the effort to vaccinate this age group. Children under the age of 18 and seeking a vaccine should contact the Iowa County Health Department.

Join outdoors activities this summer

Much to-do has been made of new and returning outdoor users since COVID-19 began last year.

We should all be aware of these new folks, and their children, and continue to welcome them into opportunities that interest them and more they may grow into. Some, but not all, outdoors enthusiasts begin their adventures with hunting deer, fishing bluegills, or picking morels. Others entered doing less-regulated activities, but as enthralling as camping, hiking and birding.

One of the two winners awarded a 2020 ethical hunter award was recognized for his part in bridging a gap, sometimes perceived, by explaining Wisconsin's hunting society and assuring these other users that it is possible to mix hikers and grouse hunters, provided they are aware of one another's presence.

A group in Sauk city has been introducing novice outdoors adventurers to hunting, processing and consuming deer meat (venison).

Checking out fishing gear has been made available through local libraries in that community. Wild game banquets have been held inviting those who have never eaten morels, squirrel or catfish.

Wisconsin's prairies are beginning to show flower buds on pale purple coneflowers and compass plants. White-tailed deer, of all ages and genders, are looking fit and fine in their red (or spotted) summer coats. No one has ever called a day-old fawn, or a photograph of one, ugly.

The end of the state's Bald eagle 2021 recruitment has developed black feathers, but because the nests are often in deciduous trees, the eaglets are becoming more difficult to observe. They are entirely black.

It's likely that the Bald eagle's common name origin is better known by someone who has never caught a bluegill, photographed a columbine flower or field dressed a whitetail, than a one who has.

Appearing "bald" is explained in

a recent book. Stan Tekiela, in his recent book "Bald Eagles: The Ultimate Raptors," explains. "The word ballede was synonymous with white or shining white, not hairless." Either way, bald in the name seems to be appropriate. Tekiela said. His 160-page book is half filled with photographs that will excite anyone who enjoys the out-of-doors and its critters.

Morrison Outdoors sells sleeping bags for parents who want to take their 6-24-month-old baby along camping. The "LittleMo 20" is available in several colors. Included is a Safe Sleep checklist for these moss green and sky blue warm beauties. Search their web page for order information.

Baby Fire Pits are perfect for roasting s'mores on a picnic table, backyard stone, and other safe areas where families may pause to rest. Each one-of-a-kind pit is made by H and K Studios in Colorado. Check out their web site, babyfirepits.com, for more details for this new item for those who are new to the outdoors, and old-timers, too.

Jill Schartner, retired DNR warden in Bayfield County, summarized her ruby-throated hummingbird experiences of late. "During that really cold, wet period, I put out a couple warmers that 23 birds were using that night. We have as many as 100 feeding at my 16 feeders. Several years ago I went through 300 pounds of sugar in a summer."

Fox have been numerous in Schartner's recreational area, as well as fishers, but fewer than normal black bears. Grouse drumming has been steady, she said.

Aliana Gerrits, the DNR's assistant upland game bird ecologist is planning to assemble 500 grouse kits for hunters' samples this fall to continue the West Nile Virus research.

Very preliminary counts of the 2021 drumming survey suggest slightly fewer drums compared to 2019, the last year drumming could be conducted. "A down trend would be about normal for the likely point

the 10-year-cyle," Gerrits said.

A few drummers were heard in Lafayette and Iowa counties this spring.

Wayne Smith, in Lafayette County said the turkey season (he hunted most periods) was about normal during the later periods. "I've seen more snakes this spring, including three bullsnakes crossing town and county roads here. The black raspberry crop is coming along nicely, while blackberries are flowering."

Fishing crappies and bluegills in Brownsville and Yellowstone lakes have been fair to good, Don Martin, in Monroe said. "I had a 91-year-old woman come in for fishing supplies for the free fishing weekend last weekend. She'll be back for a license if she caught anything during the free weekend."

Farmers and drivers should watch out for new fawns in the fields and along roads, according to Doug Williams, at Portage. "The coyote numbers seem to be up a bit. Get out and listen at 11 p.m. if you want to hear them. The pups are about half grown; same with red fox."

Bret Schultz, in Black Earth area, said this month is going to be a little bit more difficult to fish trout with the higher temperatures and July is the toughest month of all. "These conditions really limit a good fishing times," he said. "Early in the morning or after dinner are better. Weed growth is not too bad yet; July will be a lot worse. Some bugs will be out after dinnertime throughout June," he said. "I'd look to streams that are well populated (with fish) but without a bug hatch an angler may never guess that.

"Right now the streams are spooky low, but I've had a very good spring." If someone out there looks lost, ask if you can help them find their way to enjoying summer outdoors.
